Property features

Stettin

Szczecin is the largest city in northwestern Poland, located on the Oder river and close to the Szczecin Lagoon. It has a large seaport and a historic old town. Worth seeing are the medieval Chrobry Embankment along the river with a view of the harbour, the old town with its town hall, and numerous museums (such as the National Museum). Although not directly on the sea, a maritime atmosphere is felt here thanks to the river and the lagoon. The climate has continental influences but is cool in summer thanks to Baltic winds.

Note

- The first photo in our gallery has been lightly edited to illustrate how the property could look – for example with a different wall colour. The following images show the actual condition of the property.
- The price shown in euros corresponds to the price in złoty, but due to exchange rate fluctuations it is always an approximate value. Our listings always also state the price in złoty, as requested by the seller.

Notes on Polish real estate practices:

- Limited location information: in Poland it is common practice for property listings not to disclose the exact address of the property.
- Floor plans: detailed floor plans are not always provided in listings.
